

PKI TOKEN PIN MANAGEMENT USER MANUAL (END USER)

1.0 RESET PIN

Pre-requisite:

- Your computer must have internet connection.
- Trustgate USB Token is already plugged-in on your computer.
- You must download and extract the ClientManager.zip file from the URL link given

Please download the Reset PIN tools at: https://www.msctrustgate.com/download/ClientManager.exe

1) Double click the **ClientManager.exe** tool's icon on your computer as below image.

2) To unblock your usb token, click on Reset Pin tab, then click on Request/Check Status button. Unblock Code will be displayed and you will received an email to acknowledge your request to reset pin. You can close the tool.

Please call MSC Trustgate (+603-83181800) for approval	

After you receive below email, kindly call Trustgate for us to validate and approve your request to reset pin.

Dear Muhammad, We would like to acknowledge you that, we had received a request to reset PIN of an USB token registered on your name and this email address. If you are unaware of this request, kindly contact us immediately. You are required to call us (+603-83181800) before we can approve this request.

3) After call and validate with Trustgate, you will received another email acknowledge your request being validated.

4) Open the ClientManager.exe tool again and click on Request/Check Status button. Now you will be able to enter new PIN. Enter your new pin in New PIN and Confirm New PIN textbox provided, then click Reset PIN button.

*The **Reset PIN** button will not appear unless the PIN you entered is 8 – 12 digit and are the same for both **New PIN** and **Confirm New PIN** textbox.
